# GET SHOW CAR RESULTS FROM MEGUIAR'S!

## Deep Crystal® Car Wash

Superior sudsing action washes away dust & dirt without stripping wax protection.

## Cleaner Wax

Specially formulated wax protects paint's surface and produces eye-dazzling results. Available in liquid and paste applications.

## Quik Detailer®

The missing link between washing and waxing. Perfect for fast touch-ups! Available in trigger and new aerosol applications.

## Interior:

## Gold Class™ Rich Leather Wipes

Cleans, moisturizes and protects leather surfaces in one easy step.

## PlastX™

Easily removes fine scratches and haze to restore clarity to headlights, convertible windows and face shields.

## Hot Shine™ Tire Spray

Gives tires a high-gloss, wet-look shine that lasts! Available in trigger or aerosol applications.

## ScratchX®

Uses a non-abrasive cleaner to effectively remove fine scratches and swirls from painted surfaces to produce a deeper gloss.

## Hot Rims® All Wheel Cleaner

Xtreme Cling™ foam breaks down grime and build-up for a sparkling shine. For chrome wheels, look for Hot Rims Chrome wheel cleaner.

# KEYS TO CAR CARE FROM THE PROS AT MEGUIAR'S

## Washing

Detergents can dry your paint out, leading to a loss of gloss and shine. When you wash your car, only use water and a car wash shampoo and conditioner like Meguiar's® Deep Crystal® Car Wash.

## Cleaning/Prepping

Fine scratches are most noticeable on dark colored cars and are usually the result of using abrasive washing and/or drying towels. The most effective way to remove below surface paint problems like oxidation, fine scratches and swirls is to use a non-abrasive clear-coat safe paint cleaner like Meguiar's ScratchX®.

## Polishing (optional)

If you wax your car at least once a month and wish to avoid build-up, a pure polish – like Meguiar's Deep Crystal® Polish is recommended as an optional step for dark-colored cars prior to waxing to help create the ultimate in high gloss.

## Waxing/Protecting

To protect and add a brilliant gloss to your paint's surface, it makes sense to use only premium car wax products like Meguiar's Cleaner Wax, Gold Class™ Wax, or NXT Generation® Tech Wax™.

## Maintenance

Regular maintenance removes above surface contaminants like bird droppings or tree sap before they have time to bond or etch into your paint finish, Meguiar's Quik Detailer® or NXT Generation Speed Detailer™ dramatically extend the durability of your wax protection.

**The final step to a dazzling shine is to stand back and ENJOY!**
